Apart from selling your books assiduously on-line, there are several different strategies that may help you sell more books.

One is to provide one thing away without spending a dime along with your e-book, such as a valuable bonus item. Or bundle a number of ebooks under one worth, which lowers the worth for every e book if they have been sold separately.

An effective method for figuring out a worth is to send out a survey to your current customers. If these clients have already bought an e-book from you, ask for his or her opinion by way of price. Do that by making a gross sales page for the brand new book, however do not embody a price on that page. Instead, add a number of links to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

One other strategy is to test out costs by creating a number of duplicate gross sales pages with totally different prices on every page. Be sure your gross sales copy is exactly the identical on each web page, and contains your promoting-handle sentence. Then work out for each web page the conversion ratio between guests to your website and gross sales of your book. This can tell you what your optimum price is.

Ultimately, for those who've written a e book that solves a drawback or presents a new approach, your guide will bring in both site visitors and profits. So make sure you write that promoting-deal with sentence that sums up what problem your guide solves and what the advantages of your *Sitemap F* ebook will probably be to the shoppers who purchase it. After which watch your market come to you!
